MARMATON MATTERS.

MARMATON, Oct. 3d, 1878.

Our Sunday School at Walnut Grove, under the superintendence of Dr. Strong, has revived again the cooler weather set in, with much interest on the part of both scholars and teachers.

Our road overseer, Mr. L. H. Gorrell, has begun a good work, by grading the State road near John Richards' farm. Finish it up "Dock," and give us a passable road.

P. J. McGlashen is building a nice farm house on his farm, and thus our country improves.

We understand Mr. Fehleisen intends soon to build on the farm he bought of Mr. Hoffman.

We noticed on Monday last at Mr. Armstrong's quite a crowd of strangers and their covered wagons and upon making inquiry found it to be a Mr. Adams from Wayne county, Indiana, just moved to Kansas. He has stopped his family temporarily on the Watson farm in Elm township until he can look around for a place that will suit him.

Wonder if a certain land speculator thinks he did the "clean thing" in a certain trade he made recently, heh?

Mr. C. C. Clark and lady, of Rockford, Illinois, is visiting this week with Dr. Strong, also Mrs. Watson of the same place is visiting her daughter, Mrs. J. C. Strong.

The V. C. have their eyes on a certain V. D. M. who visits our township occasionally. He had better keep dark.

Health is good and all seem to enjoy this beautiful weather.

"Where, oh where is Hudson Grange?" is the cry since the evenings begin to lengthen out.

OSAGE TOWNSHIP NEWS.

Mr. Editor:—Here we are again after a long "spell." It is Marmaton township on the war path this time. Osage is quiet, no more assault and battery cases since both complainant and defendant must come to grief at the hands of the jury.

We live so far away and our visits to the editorial sanctum are so far between, else he would have shared some of those fine healthy clings that ripened the last week of September. (We remind him of what he missed so that he might take this route another year.) We know one family who have not been without ripe peaches from July 1st until now.

Threshing is generally past and the prevailing opinion is that flax was the most remunerative crop.

A much larger acreage of winter wheat has been sown this season than last. Mr. Henry Smith leads the south part of the township by sowing nearly fifty acres.

Hog buyers are active but prices are low.

The Free Methodists held campmeeting on the Osage, Rev. W. N. Hanby conductor, from September 19th to 24th. Rev. Bickham opened the artillery on Freemasonry on the morning of the 22d. "Let the longest winded win."

The late potato crop has been injured by the dry weather of August.

A few of the inhabitants of Bourbon county sport a cheap watch purchased of an employee of that "big show" for the sum of forty dollars.

ONION CREEK BRICK BATS.

[The following items were received last week but were mislaid until too late for publication.]

As our bright sunny corner has been represented in the columns of THE REGISTER for some time we deem it our duty to enlighten the outside world of some of the most interesting haps and mishaps of Onion creek and vicinity.

Corn is dry enough to gather.

Onion creekers are still putting up hay.

The ground is in excellent condition for plowing.

J. R. Barr, W. H. Sapp, and Frank M. Barr have gone to Southwest Missouri on a pleasure trip.

Charley Gibson of Deference was over last Monday flying around among his many friends.

Frank M. Smith, of Chicago, called on a number of his friends on the creek, recently.

P. V. McMillen returned from Hutchinson, Reno county, the first of the week. He sold his load of apples at \$1.50 per bushel. Mr. reports wheat stacks as thick out there as hay stacks are in this county.

Miss Nettie Chambers, of Humboldt has been employed to teach the Onion creek school.

Miss Nanamie Gibson will teach the Pleasant Valley school this fall and winter. This will be her third term at that place, which speaks well for her as a teacher.

Mrs. James H. White who was severely injured a few weeks ago, is convalescing very rapidly.

The road boss of road district No. 3 captured all the able bodied men in the district this week.

The festive book agent entertained the Onion creekers last week with the most chin music for the least money, of any man that has tramped this way for to these many days.

A great many Greenbackers in this vicinity express themselves as disgusted with the "Gyasticuti" convention held at Iola last week.

COUNTY SCHOOL STATISTICS.

Superintendent Root furnishes us with the following statement taken from his annual report:

Number of organized districts, 57; number of district clerks reporting, 57; number of children between the ages of five and twenty-one, 3230; number of pupils enrolled, 2414; average daily attendance, 1373; number of different teachers employed since last report, 82; average salary per month, gentlemen, \$24.73; average salary per month, ladies, \$22.55; number of school houses, frame 51, brick 1, stone 5; estimated value of buildings and grounds, \$37,180; estimate value of apparatus, \$591; average tax levied for school purposes, \$.00877; number of persons over 16 years of age who cannot read and write, 49.

DIED.

At the residence of her son in Iola, on the morning of the 27th ult., after a painful illness of about five weeks, Mrs. F. M. Ingervoll, aged 72 years and five days. The deceased was a native of Franklin County, Vermont, and had resided in that State until two years ago, when she came to Kansas, and had lived in this State until the time of her death. She was a woman of much force of character and untiring industry, and was always a kind and affectionate wife and mother. For many years she had been a professed Christian, and on her death-bed had no misgivings of the future.

By order of the President.

JOHN STEVENSON, Sec'y.

Hallowell next week.

Hallowell in Oage township next week.

Late potatoes have a faint prospect of a sale.

Utensils and blue nose will soon be in style.

Sunday was the windiest day of the season.

Walrus and hickory nuts are very plenty.

Straw hats are being consigned to the land of limbo.

Merchants are opening out their fall stocks of goods.

Now look out for cold in the head and congested liver.

The Board of County Commissioners meet next Monday.

O. M. Simpson went up to Emporia this week on business.

Gov. Anthony will speak at Humboldt on the 19th at 7 p. m.

Friday's rain was an excellent thing for our farmer friends.

Why don't some of the church societies get up an oyster supper?

Go over to the school house to-day and help examine the teachers.

Remember the Republican meeting at Iola next Thursday afternoon.

Remember the day and date, Oct. 10th at 2 p. m., Gov. Anthony at Iola.

The ladies are especially invited to attend the Republican meetings advertised for this county.

The down-pour of the rain interfered with the out-pouring of the Democracy last Saturday.

Mr. Thomas has traded his farm for Mr. Fisk's house. Mr. Fisk has moved to the country this week.

The Board of County Commissioners meet in regular session at the court house next Monday.

Mrs. Julia A. Whitney has just received a fine upright piano. It can be seen at Stevensons.

Book borrowers are requested to read Mr. Cook's notice in "special column," in regard to loaned books.

Col. Hallowell will address the people of Deer Creek township on Thursday, Oct. 10th at 7 p. m. Turn out.

Sheriff Hodgson's youngest child has been quite sick this week, and was hardly expected to live at last accounts.

Mr. Slavens, so we are informed, denies point blank the statement that he was drunk at Humboldt, recently. "This is well."

While Mr. Drake was burning a fire guard around his fence last week the fire got away from him and burnt up a lot of hay for Mr. J. R. Young.

We hope the Republicans will see that the meeting of D. C. Haskell at Spring Valley School House in Osage township is well advertised. Turn out.

See here, you candidates for township office; its about time the public knew what office you are striving for. Only \$2 in advance; \$2.50 if time is given.

Our road overseers should attend to the roads in their districts at once. It will be the same old cry of "bad roads" soon, if work is not put on some of them at once.

We were glad to see Mr. A. S. Hankins on the street Saturday. He has been having a serious time at his house—the folks sick at one time and no help to be procured.

A sister of Mr. Rhoades, who was advertised to speak Monday evening, came in from the country over 20 miles to hear him. As he did not come it was quite a disappointment.

From every section comes encouraging reports of the wheat. The recent rains have brought it out in the finest possible shape. The yield next season will from present appearances be very large.

Mr. E. C. Benedict who has been sick for nearly five weeks is slowly recovering. We hope he will be able to be out soon so his many friends will be able to congratulate him on his entire recovery.

Gov. P. P. Elder made us a short call Monday, just to get acquainted, you know. He spoke in the evening at the court house and on Tuesday evening at the Carpenter school house in Deer Creek township.

Mr. Brown late of Livingston county, Illinois, has located in our city and will soon commence the practice of law (his profession) here. We are glad to make his acquaintance and trust he will do well.

The awards of premiums on sheep, as published last week should have read: For best ram under one year, best three ewes, best lot of sheep, five or more, best pen of lambs, best ram any age or breed, best ewe and for sweepstakes, J. W. Collett & Son.

The amount raised in Iola this week for the yellow fever sufferers amounts to about \$30. This does not include the Masons' fund which will probably amount to \$60, nor further contributions from committees not yet reported which will amount to \$50 or \$60 more—making a total of about \$175.00.

Married, at the residence of I. B. Lawver, by Rev. William Hankins, Thursday Oct. 3d 1878, Mr. Leander Patton and Miss Mattie L. Brown. All of Allen county, Kans.

At the same time and place by the same Mr. Jas. B. Pees and Mrs. Eliza A. Davidson.

Hon. John R. Goodin was up to the Democratic County Convention last Saturday and shedding smiles on every hand. It would please our local pride could we hail him as our next Governor, and really, he would not make a bad man for the position; but there is no chance of his election "allice same."

Messrs. Carter & Young, of Osage, have our thanks for a jar of that premium sorghum molasses which they had at the District Fair and on which they took first premium. If our readers see anything sweet about us this week it is all owing to that delicious syrup we have been eating on our hoe cakes. Now who brings us some buckwheat after while to go with it?

The ladies of the Aid Society Auxiliary to the Home of the Friendless of Leavenworth, desire to send in their fall contributions as early as possible, and ask all who feel disposed to contribute a "pound" or a "bushel" of any thing used in a family to send them to Mr. M. L. Scott, President of the Society, or bring them to the social meeting on Thursday Oct. 17th at 3 o'clock, at the residence of B. B. Stevenson, at which time the box will be packed.

By order of the President.

JOHN STEVENSON, Sec'y.

COMMUNICATED.

EDITOR OF REGISTER:

In your issue of September 27th you say that the City Council should either license a saloon or enforce the law and suppress the sale of liquor.

Your remarks would seem to a disinterested observer to be personal. You evidently do not know what you are talking about; for if there has ever been a petition presented to the present council it is not a matter of record, and it has certainly been well settled that a license without a petition of a majority of the adults of the city is void and no protection. Do you expect the members of the Council to go around town with a license in their pocket offering it to each man who would like to start a saloon, or do you expect the people to comply with the law by a majority of them signing a petition asking the Council to grant a license?

As to your second proposition that the Council should enforce the law: To that I would say, if you will examine Section 22, Article 2 of the act organizing cities of the third class, you will find that it is the duty of the Mayor to see that the law and ordinances of the city are enforced. The Council enacts the ordinances, and provides the machinery of the Government. The Mayor and officers acting under him, with the aid of the people, are the ones to enforce the laws. If those persons who can so readily see the inefficiency of the City Council would do their own duty by aiding the city authorities in searching out and punishing the offenders against the law the evil of which you complain would soon cease among us.

Signed,

A MEMBER OF THE COUNCIL.
